

CAA FAMILY SAFETY BOOKLET

School Zone & Playground Zone Safety Tips

School zones and playground zones are becoming more dangerous. Parents with young children are reporting an increase in unsafe driving and pedestrian practices. According to a CAA survey, the top hazardous driving behaviours that motorists perform in a school zone are speeding, distracted driving, and parking in a no-stopping area. The top risky pedestrian behaviours are jaywalking and failing to look both ways when crossing the street. Together, we can make the safety of everyone in school zones a number one priority.

Students:

- Never run out in **traffic** or between parked cars, buses or **buildings**.
- Eliminate distractions such as using your headphones and electronic devices for **texting**, listening to music, social media, or gaming.
- Keep your head up, look **around**, and be aware of your surroundings.
- Follow traffic signs and signals. Only cross at designated locations or **crosswalks**. Do not jaywalk.

Parents and Guardians:

- Obey the “no stopping” zones in front of schools and use the **designated** drop off and pick up areas only.
- Teach **children** about the rules of the road – always stop, look both ways, listen, and think before safely crossing the street.
- Plan children’s walking **routes** to and from school. Walk with them to help familiarize them with the route.
- Always have an adult, older student, or sibling walk with **younger** children.
- Park a couple of blocks away to avoid traffic **congestion** and safely walk the rest of the way with your children. Don’t park illegally.

CAA School Safety Patrol® Program

CAA Saskatchewan School Safety Patrollers have acknowledged that they gain confidence, learn responsibility and leadership through the program. They are able to model these traits to other students in their communities. Patrollers help keep Saskatchewan school zones safe by assisting their peers to cross the road safely on their routes to and from school. The program is successful thanks to the combined support from CAA Saskatchewan and local law enforcement, school divisions, teachers, parents, and of course the student volunteer patrollers.

CAA Saskatchewan has coordinated and managed the CAA School Safety Patrol program since 1951. CAA Saskatchewan supplies training materials, stop paddles, reflective vests and other supplies free of charge to all registered CAA Saskatchewan School Safety Patrols. Caps and toques are available to purchase. Patrollers are trained annually through a formal program provided by CAA Saskatchewan with assistance from local police before participating in the program. For more information or to start a patrol at your school, visit caask.ca/patrollers or email schoolsafetypatrol@caask.ca.

Patrollers at St. Paul's School in Yorkton

CAA School Safety Patrol® Month

May is CAA School Safety Patrol Month here in Saskatchewan as proclaimed by the Minister of Education.

CAA School Safety Patrollers are leaders in their school communities who practice and demonstrate pedestrian and road safety. Thank you, patrollers for the valuable volunteer work that you do to help keep students and school zones safe.

Thank you, safety patrol coordinators and law enforcement, for working with our patrollers for the safety of all students.

CAA SAFETY REMINDERS TO KEEP CYCLISTS SAFE

BE SEEN

Wear lightly-toned or brightly coloured clothing

BE READY

Equip your bike with a cage and water bottle that can be easily and safely accessed

BE READY

Avoid loose fitting pants that can get tangled in your bike chain

BE READY

Always wear running or cycling shoes while riding

BE SEEN

Use reflectors and reflective tape on your helmet, clothes and bicycle

BE SEEN

Equip your bike with a headlight and taillight for night riding

BE HEARD

Equip your bike with a bell or horn to signal pedestrians and drivers, and to pass other bikes safely

CAA Bike Safety Tips

- Plan your ride and avoid dangerous routes.
- Choose the best bicycle for you. Consider size, frame, and seat height, as well as the type of roads or trails you ride on.
- Wear a bike helmet, every single time you ride your bike. It increases your chances of surviving a fall or collision and helps prevent brain injury.
- Never ride your bicycle while wearing headphones.
- Keep both hands on handlebars, except when making a hand signal.
- Wear proper footwear and keep both feet on pedals.
- Ride in a single file and follow the rules of the road.
- It's important to be seen, be heard, and be ready.

How to Make Sure Your Helmet Fits Properly

- Your helmet should sit level on your head (not tilted back).
- The front edge should be one inch (two fingers) or less above your eyebrows to protect your forehead.
- The straps should join right under your ear to form a "V".
- Adjust the straps around both ears until you have a comfortable fit.

Do You Know Your Cycling ABCs?

Before you ride your bike, make sure it functions properly.
Use this checklist to ensure a safe ride.

A

is for **AIR**

Check if tires are inflated.
Inspect for worn, cracked, or gouged tires.

B

is for **BRAKES, BAR & BELL**

Squeeze brake levers to make sure that they stop the bike.

Inspect brake pads for wear.

Set handlebars at the right height.

Test bell.

C

is for **CHAIN & CRANK**

Adjust and lubricate chain.
Test the gears of the crankset.

If any of these things are not working correctly,
visit a local bicycle shop to have repairs made.

CAA Pedestrian Safety Tips

Learn some helpful pedestrian safety tips by solving the crossword puzzle.

Across

- 2** Teach children about the _____ rules of the road.
- 4** Be _____ and aware of your surroundings.
- 6** Never run out in _____ or between parked cars, buses, or buildings.
- 7** Do not _____.
- 9** Wear _____ clothing or accessories at night to make yourself more visible.
- 10** Follow traffic signs and _____. Only cross at designated locations or crosswalks.
- 12** Parents, caregivers, or older children should hold hands with younger children when _____ the street.
- 13** Stop, look both ways, _____ and think before safely crossing the street.

Down

- 1** Avoid wearing _____ or anything that can obstruct your vision or hearing.
- 3** Eliminate _____ such as using your mobile devices for texting, listening to music, social media, or gaming.
- 5** Allow extra _____ to cross the street safely with older adults, individuals with mobility issues and younger children.
- 8** At a traffic light, start crossing when the walk light first starts _____. Do not cross when the final countdown is on signaling the light will change as you will not have enough time to cross the street safely.
- 11** Ensure all vehicles come to a complete stop and make eye contact with _____ before crossing the street – _____ never assume that drivers can see you or know your intentions.

Answers:
Across: 2 - safety; 4 - alert; 6 - alert; 7 - traffic; 9 - jaywalk; 10 - reflective; 13 - signals;
Down: 1 - headphones; 3 - distractions; 5 - time; 8 - flashing; 11 - motorists;
12 - crossing; 13 - listen.
